SUMMARY

Full-stack Software Engineer with hands-on experience building AI-powered, real-time communication applications using React, Next.js, React Native, and Node.js, along with real-time voice pipelines (STT, TTS, LiveKit, Plivo). Also built and shipped production Android applications during an internship. Focused on writing clean, performant code and shipping features that work in production.

SKILLS

Languages: JavaScript, TypeScript, SQL

Frontend & Mobile: React.js, Next.js, React Native, HTML5, CSS3, Tailwind CSS

Backend & Database: Node.js, Supabase, Neon DB, Firebase, REST APIs

AI & Real-time Voice: LLM API Integration, Prompt Engineering, LiveKit, Plivo, STT/TTS Integration

Tools & Platforms: Git, GitHub, VS Code, Vercel

EXPERIENCE

Software Engineer / *Trikon.Tech, Mangaluru*

June 2026 – Present

- Full-stack development on AI-powered, real-time communication applications across web and mobile - using React, Next.js, React Native, and Node.js.
- Built and integrated real-time voice AI pipelines, connecting speech-to-text (STT) and text-to-speech (TTS) with telephony infrastructure (Plivo, LiveKit) for natural, low-latency conversations.
- Improved latency in real-time voice interactions and collaborated in an agile team - raising and reviewing pull/merge requests, debugging, and fixing issues across the stack.

Software Development Intern / *Design Webtech Pvt Ltd, Bengaluru*

June 2025 – Nov 2025

- Built and shipped 2 production-level Android applications, working across UI, API integration, and local data persistence (Retrofit, Room Database, Material Design).
- Architected scalable MVVM + Clean Architecture with Coroutines, LiveData, and Navigation components; delivered offline-first functionality with structured API error handling.

PROJECTS

Smart Garbage Collection System (In Progress) / *React.js, Node.js, Maps API, Supabase*

Building a full-stack web app for real-time garbage collection route tracking using Maps API integration, with a RESTful Node.js backend handling location data and collection scheduling.

KB-Chatbot – AI Knowledge Base Chatbot / *React.js, Firebase, Groq API (LLM)*

Built and deployed a full-stack AI chatbot answering queries via LLM integration, with Firebase Authentication and Firestore for real-time data handling.

StreeRaksha – Women's Safety Application

Built a mobile safety app with SOS emergency alerts, real-time location sharing, a siren/deterrent trigger, and emergency contact management - with secure authentication and real-time data storage for a smooth user experience.

EDUCATION

Master of Computer Applications (MCA) / *Canara College, Mangaluru* / CGPA: 9.0

2024 – 2025

Bachelor of Computer Applications (BCA) / *Canara College, Mangaluru* / CGPA: 8.87

2020 – 2023

CERTIFICATIONS

ReactJS – Simplilearn · Web Application Development in ReactJS – Codelab Systems · Claude Code in Action – Anthropic
